Farrar, Straus Giroux Inc, United States, 2016. Hardback. Book Condition: New. 210 x 139 mm. Language: English . Brand New Book. As every parent knows, kids are surprisingly clever negotiators. But how can we avoid those all-too-familiar walls, That s not fair! and You can t make me! ? In The Game Theorist s Guide to Parenting, the journalist Paul Raeburn and the game theorist Kevin Zollman pair up to highlight tactics from the worlds of economics and business that can help parents break the endless cycle of quarrels and ineffective solutions. They show that some of the same strategies successfully applied to big business deals and politics such as the Prisoner s Dilemma and the Ultimatum Game can be used to solve such titanic, age-old parenting problems as dividing up toys, putting down these screens, and sticking to a bedtime. Raeburn and Zollman open each chapter with a common parenting dilemma, such as determining who started fight or who gets a bedtime story first. Then they show how carefully concocted schemes involving bargains and fair incentives can save the day. Through smart case studies of game theory in action, Raeburn and Zollman reveal how parents and children devise strategies, where those strategies go wrong, and what we can do to help raise happy and savvy kids while keeping the rest of the family happy too. Delightfully witty, refreshingly irreverent, and just a bit Machiavellian, The Game Theorist s Guide to Parenting looks past the fads to offer advice you can put into action today.
